APPSC AEE 2026 — Syllabus Tracker & Study Schedule

Notification No. 27/2026 · Apply online 2 – 22 Nov 2026 · Exam: online CBRT · Negative mark: 1/3 per wrong answer

How to tick: **Read** = understood from video + book · **Notes** = 1-page formula/short notes made · **MCQs** = 50+ questions solved · **Revised** = revised once more on Sunday

Daily: 5:30–7:00 am new topic · 7:00–8:30 pm MCQs · 8:30–9:15 pm Paper 1. **Weekend:** 6–8 hrs — finish the week's targets + test.

Rule: don't move to the next week until 3 of 4 boxes are ticked. If behind, use Sunday to catch up. When APPSC announces the exam date, shift the revision weeks to the last 3 weeks before the exam.

#	Topic (as per syllabus)	Read	Notes	MCQs	Revised
PAPER 2 — Civil & Mechanical Engineering (Common) · 150 marks					
Week 1 15 – 21 Oct					
1	SOM: Forces, moments, equilibrium, planar trusses, friction	☐	☐	☐	☐
2	SOM: Simple stresses & strains, Hooke's law, stress–strain curve of mild steel, factor of safety	☐	☐	☐	☐
3	SOM: Poisson's ratio, elastic moduli & relations, bars of varying section, composite bars, temperature stresses	☐	☐	☐	☐
4	SOM: Strain energy, resilience — gradual, sudden, impact & shock loads	☐	☐	☐	☐
Week 2 22 – 28 Oct					
5	SOM: Types of beams; SF & BM for cantilever, SS & overhanging beams (point load, UDL, UVL)	☐	☐	☐	☐
6	SOM: Point of contraflexure; relation between SF, BM and rate of loading	☐	☐	☐	☐
7	SOM: Flexural stresses — bending equation, neutral axis, section modulus, design of simple sections	☐	☐	☐	☐
8	SOM: Shear stress distribution across beam sections	☐	☐	☐	☐
Week 3 29 Oct – 4 Nov					
9	SOM: Principal stresses & strains, Mohr's circle, theories of failure	☐	☐	☐	☐
10	SOM: Columns — Euler's theory, end conditions, Rankine's formula	☐	☐	☐	☐
11	SOM: Torsion of shafts, power transmitted, combined bending & torsion; helical & leaf springs	☐	☐	☐	☐
12	SOM: Thin cylinders & spherical shells; lifting machines & virtual work	☐	☐	☐	☐
13	**TEST: Module 1 (Strength of Materials) — 50 MCQs. Score: ____ / 50**	☐	☐	☐	☐
Week 4 5 – 11 Nov (Apply online: 2 – 22 Nov)					
14	FM: Fluid properties — specific gravity, viscosity, surface tension, vapour pressure	☐	☐	☐	☐
15	FM: Pascal's law, pressure measurement — piezometer, U-tube & differential manometers	☐	☐	☐	☐
16	FM: Hydrostatic forces on plane & curved surfaces; buoyancy, floating bodies & stability	☐	☐	☐	☐
17	FM: Kinematics — types of flow, velocity & acceleration, continuity equation, velocity potential, stream function, flow net	☐	☐	☐	☐
Week 5 12 – 18 Nov					
18	FM: Euler's & Bernoulli's equations and applications; momentum equation	☐	☐	☐	☐
19	FM: Flow measurement — venturimeter, orificemeter, rotameter, pitot tube, hot-wire anemometer	☐	☐	☐	☐
20	FM: Pipe flow — Reynolds experiment, major & minor losses, pipes in series/parallel, TEL & HGL, water hammer	☐	☐	☐	☐
21	FM: Boundary layer — thickness, laminar & turbulent, separation; drag & lift	☐	☐	☐	☐
Week 6 19 – 25 Nov					
22	FM: Impact of jets on vanes, velocity diagrams; turbines — Pelton, Francis, Kaplan, draft tube	☐	☐	☐	☐
23	FM: Turbine performance — unit & specific quantities, characteristic curves, governing, cavitation	☐	☐	☐	☐
24	FM: Centrifugal pumps — work done, efficiencies, specific speed, NPSH; hydraulic control valves	☐	☐	☐	☐
25	FM: Hydro projects & power plants — layouts, pumped storage, hydrographs, storage & pondage, dams & spillways	☐	☐	☐	☐
26	**TEST: Paper 2 full mock — 150 MCQs. Score: ____ / 150**	☐	☐	☐	☐
PAPER 3 — Civil Engineering (Posts 1, 3, 4, 7) · 150 marks					

#	Topic (as per syllabus)	Read	Notes	MCQs	Revised
Week 7 26 Nov – 2 Dec					
27	SURVEY: Classification, scales, distance measurement, compass, local attraction, theodolites	☐	☐	☐	☐
28	SURVEY: Levelling, contours, DEM, triangulation & traversing, coordinates	☐	☐	☐	☐
29	SURVEY: Plane tabling, photogrammetry, remote sensing, GPS, field astronomy, map substitutes	☐	☐	☐	☐
Week 8 3 – 9 Dec					
30	MATERIALS: Timber, bricks (IS classification), cement compounds & setting, mortar	☐	☐	☐	☐
31	MATERIALS: Concrete — w/c ratio, admixtures, workability, strength tests, mix design, NDT	☐	☐	☐	☐
32	TRANSPORT: Highway planning, alignment, geometric design, curves, grade separation	☐	☐	☐	☐
33	TRANSPORT: Highway materials, pavement design, drainage, traffic surveys, intersections, signals, mass transit	☐	☐	☐	☐
Week 9 10 – 16 Dec					
34	SOIL: Properties & classification, compaction, permeability, seepage & flow nets	☐	☐	☐	☐
35	SOIL: Consolidation, stress distribution, shear strength, lab & in-situ tests, earth pressure	☐	☐	☐	☐
36	FOUNDATION: Soil exploration, bearing capacity, settlement, shallow foundations, piles, expansive soils	☐	☐	☐	☐
Week 10 17 – 23 Dec					
37	ENV: Water supply — sources, demand, intakes, quality standards, treatment, distribution, rural supply	☐	☐	☐	☐
38	ENV: Waste water — sewers & sewerage design, sewage characteristics & treatment, plumbing, sanitation	☐	☐	☐	☐
39	ENV: Solid waste, air & noise pollution, standards, EIA	☐	☐	☐	☐
Week 11 24 – 30 Dec					
40	HYDRAULICS: Open channel flow, most economical section, specific energy, critical depth	☐	☐	☐	☐
41	HYDRAULICS: Gradually varied flow, surface profiles, hydraulic jump; dimensional analysis & models	☐	☐	☐	☐
42	HYDROLOGY: Hydrological cycle, precipitation, evaporation, unit & S-hydrograph, floods, flood routing, reservoir capacity	☐	☐	☐	☐
Week 12 31 Dec – 6 Jan					
43	IRRIGATION: Soil-plant-water relation, water demand, irrigation systems, wells, water logging & drainage	☐	☐	☐	☐
44	IRRIGATION: Canal design — Lacey's & tractive force, lining, sediment transport	☐	☐	☐	☐
45	IRRIGATION: Gravity dams, energy dissipaters, head works, falls, cross-drainage works, outlets, river training	☐	☐	☐	☐
Week 13 7 – 13 Jan					
46	RCC: Limit state design — bending, shear, compression; slabs, beams, columns, footings (IS 456)	☐	☐	☐	☐
47	RCC: Prestressed concrete — methods, losses; brick masonry design	☐	☐	☐	☐
48	CPM: Bar charts, WBS, AOA networks, critical path, PERT, crashing, resource allocation	☐	☐	☐	☐
Week 14 14 – 20 Jan					
49	STRUCTURES: Energy theorems — virtual work, Castigliano, Betti & Maxwell	☐	☐	☐	☐
50	STRUCTURES: Deflection — double integration, Macaulay, moment area, conjugate beam	☐	☐	☐	☐
51	STRUCTURES: Indeterminate — moment distribution, slope deflection, Kani's, stiffness & force methods, plastic analysis	☐	☐	☐	☐
52	STEEL: Limit state, bolted & welded connections, tension & compression members, beams, roofs (IS 800)	☐	☐	☐	☐
53	**TEST: Paper 3 Civil full mock — 150 MCQs. Score: ____ / 150**	☐	☐	☐	☐
PAPER 3 — Common Civil & Mechanical (Posts 2 PR&RD, 6 Tribal Welfare) · 150 marks					
Week 15 21 – 27 Jan					
54	DRAWING: Conics, cycloids, involutes, scales; orthographic projections of points, lines, planes, solids	☐	☐	☐	☐
55	DRAWING: Sections, development of surfaces, isometric projections; AutoCAD basics	☐	☐	☐	☐
56	EVS: Natural resources, ecosystems, biodiversity, pollution, solid waste, disasters	☐	☐	☐	☐

#	Topic (as per syllabus)	Read	Notes	MCQs	Revised
57	EVS: Social issues, environmental Acts, population & environment	☐	☐	☐	☐
58	ELECTRICAL: Circuits, AC basics, diode, BJT, Zener, rectifiers, op-amps; COMPUTER fundamentals	☐	☐	☐	☐
REVISION & MOCK TESTS					
Week 16 28 Jan – 3 Feb					
59	Revise Paper 2 formula sheets + mistake notebook	☐	☐	☐	☐
60	**TEST: Full mock (P1 + P2 + P3). Scores: ____ / ____ / ____**	☐	☐	☐	☐
Week 17 4 – 10 Feb					
61	Revise Paper 3 formula sheets, IS code values, standard tables	☐	☐	☐	☐
62	**TEST: Full mock (P1 + P2 + P3). Scores: ____ / ____ / ____**	☐	☐	☐	☐
Week 18 11 – 17 Feb					
63	Paper 1 final revision: AP current affairs, polity, economy one-liners	☐	☐	☐	☐
64	**TEST: 2 full mocks + review of every wrong answer**	☐	☐	☐	☐

PAPER 1 — General Studies & Mental Ability · 150 marks (runs alongside, every day)

#	Weeks	Paper 1 topic (45 min daily)	Done	Revised
1	Every day	Current events & issues — International, National, Andhra Pradesh	☐	☐
2	1 – 2	Indian Polity & Governance — constitution, public policy, reforms, e-Governance	☐	☐
3	3 – 4	Indian Economy & Planning	☐	☐
4	5 – 6	History of India — social, economic, cultural; AP history; Indian National Movement	☐	☐
5	7 – 8	Geography of India with focus on Andhra Pradesh	☐	☐
6	9 – 10	General Science in daily life; developments in Science, Technology & IT	☐	☐
7	11	Sustainable Development & Environmental Protection	☐	☐
8	12	Disaster Management — vulnerability, mitigation, remote sensing & GIS	☐	☐
9	13 – 15	Logical reasoning, analytical ability (daily 15 questions)	☐	☐
10	13 – 15	Data analysis — tables, graphs, mean, median, mode, variance	☐	☐

After the written exam: the Computer Proficiency Test (MS Word, Excel, PowerPoint + typing, 100 marks, qualifying) — practise typing 15 min daily from January.
